

leading through innovation

DataGuard™ Transport and Storage Case

As data cartridge capacities approach and surpass a terabyte, it's more important than ever to provide optimal protection during transportation and storage. Imation's DataGuard™ Transport and Storage Case, the first terabyte-class storage case, provides the highest level of protection for your cartridges to help ensure the safety of vital company information. Rugged and ultra durable, the Imation DataGuard Transport and Storage Case has been tested to outperform other leading storage cases in everyday use with two- to four-times the shock protection. Its design features a universal exterior case with two interchangeable inserts to accommodate a variety of cartridge formats, offering enhanced flexibility for multi-format cartridge users.

Features & Benefits

- **First Terabyte-Class Case** – The only terabyte-class tape cartridge transportation and storage case designed to provide the highest level of protection
- **Shock Protection** – Outperforms other leading storage cases with two- to four-times the G-force shock protection
- **Interchangeable Inserts** – Slotted, cushioned inserts provide excellent protection, adaptability for changing tape library populations and can easily be replaced when necessary. Simply snap in and snap out
- **Press and Pull Latches** – Helps ensure strong hold upon impact and easy release at the push of a button
- **High Visibility** – Available in bright yellow color to reduce the risk of misplacement, loss or theft
- **Debris Reduction** – Foamless construction of inserts keeps cartridges free of dust and debris
- **RFID Enabled** – Each case includes a programmable RFID tag
- **Stackable** – Cases interlock and stack neatly to help conserve valuable shelf or floor space
- **Thermal Protection** – Helps protect your valuable data cartridges against fire damage
- **Water Resistant** – Case will float and is leak-resistant

Lifetime Warranty on Case - Imation warrants that the case will be free from defects in material and manufacture during the normal life of the case. Imation warrants that the case insert will be free from defects in material and manufacture at the time of purchase. Through normal use (about once per week) and careful handling you can expect to use a case insert for about a year. Your actual usage may vary. To help ensure maximum protection, you should replace the case insert if the insert is damaged or if you have been using the insert for a year. In the event of any failure to meet these warranties, your exclusive remedy is that Imation will either replace or refund the purchase price of the applicable product. Imation may require that the product be returned to Imation with proof of purchase. These warranties are only offered to the original purchaser. These warranties do not cover ordinary wear and tear and do not apply to failure resulting from accident, neglect or mishandling. **Imation shall not be liable for any lost data or other incidental or consequential damages.**
